The convention that was held at the Spicer church house near Jett's creek last Saturday, resulted as follows. Elisha Gilbert was elected as secretary. Henry McIntosh as chairman. Greenberry Bryant was nominated for the office of Magistrate by majority of 11, Jeff Eversole was nominated for the office of Constable, by a majority of 22.

Mrs. Elizabeth Stewart, who was formerly Miss Elizabeth Pope of Leon, Carter County Ky., and the wife of C. L. Stuart, of Frozen creek, a traveling salesman for the Lexington Dry Goods Co., of Lexington Ky. died at their home August 18th 1909 of tuberculosis. She leaves a husband and three children, Edith, Carl, and Lucile, aged respectively, 8, 5, 3, and a father and mother Mr. and Mrs. Wm. Pope of Leon, and brothers, Messrs. While her husband, children, friends and relatives, are reluctant to give her up, and are grieving and weeping her departure, they know and have the evidence that she has passed from death into life. She was a devoted member of the M. E. Church, South. And the writer has heard her shout praises to her God and our God, when her soul was full of the Saviour's love, they are perfectly contented as to Lizzie's eternal peace with God, but Oh! the separation from such a one, "God's ways as much above man's ways as the Heavens are above the earth". Her friends and people strive to bow down and say "Oh! Lord thy will be done". Mrs. Stewart was taken to her old home and interred with her child and her sister who so recently passed to the blessed eternity, in the Pope Cemetery.

Lizzie has passed over the river, And through the beautiful gate; She leaves us, we trust, but only to wait; Then her spirit with our Christ will come, And we will meet them and go on home.

Rev. and Mrs. Thomas Kelly, and H. B. Noble attended the association of the Regular Baptists held in Morgan County last week lasting three days. The following is their report:

It was thought that very near 3000 people were present each day, but owing to the people under the influence of liquor and other drinks, it was impossible for the association to be a success. It was very much regretted that, after the large number of people was gathered together, order could not have been better. A better time is anticipated for next year.

### FOR YOUR HEALTH'S SAKE

#### CASH VALUE OF AIR.

It is possible for a man to live three weeks without food, three days without water, and three minutes without air.

This simple statement of a well known fact should make it clear that air, fresh pure air, is the most important element in the world for the sustaining of life. It is also equally important that in order to perform the best labor, to do the best work in any occupation, human beings must be plentifully supplied with pure air.

There are shops, stores, and factories in every city where the conditions as to ventilation and light are bad. It would be economy on the part of the owners to spend money liberally to improve these conditions. The returns on the investment would come in more and better work from the employees. No employer of labor can afford to overlook these important considerations.

22 Caliber Repeating Rifle  
Model No. 20

In rapid firing—the real test of a repeater—the Martin solid top is always a protection and prevents smoke and gas blowing back; the ejected shell is never thrown into your face or eyes, and never interferes with the aim; the fore-end is your hand and helps quick operation.

### WHAT QUARANTINE MEANS.

Don't get it into your head that strict quarantine regulations are all right when enforced against your neighbor and all wrong and needless when there is a case of contagious sickness in your own family. It is as much the business of the health officers to compel you to obey the law and thus protect your neighbor's children as it is for them to enforce the law against your neighbor for the protection of your children.

This is the only way to look at matters of this kind. When the department says that your child, ill with diphtheria, must not mingle with other children, even though it is able to be up and running about, you should see to it that these instructions are carried out to the letter. And the same should be true respecting any and all the instructions given by the health officers for the protection of the public health.

## That Lame Back Means Kidney Disease

And to Relieve the Lame and Aching Back, You Must First Relieve the Kidneys

There is no question about that at all—for the lame and aching back is caused by a diseased condition of the kidneys and bladder. It is only common sense, any way that you must cure a condition by removing the cause of the condition. And lame and aching back are not by any means the only symptoms of derangement of the kidneys and bladder. There are a multitude of well-known and unmistakable indications of a more or less dangerous condition. Some of these are, for instance: Extreme and unnatural lassitude and weariness, nervous irritability, heart irregularity, "nerves on edge," sleeplessness and inability to secure rest, scalding sensation and sediment in the urine, inflammation of the bladder and passages, etc.

DeWitt's Kidney and Bladder Pills are an exceptionally meritorious remedy for any and all affections or diseased conditions of these organs. These Pills operate directly and promptly—and their beneficial results are at once felt. They regulate, purify, and effectually heal and restore the kidneys, bladder and liver, to perfect and healthy condition—even in some of the most advanced cases.

E. C. DeWitt & Co., Chicago, Ill., want every man and woman who have the least suspicion that they are afflicted with kidney and bladder diseases to at once write them, and a trial box of these Pills will be sent free by return mail postpaid.

Sold by Jackson Drug Company.
